

EGRWSE 2021

3rd International Conference
On Environmental Geotechnology,
Recycled Waste Materials and
Sustainable Engineering

Third International Conference on Environmental Geotechnology, Recycled Waste Materials and Sustainable Engineering, EGRWSE-2021 will be held in Izmir, Turkey from June 17 to 19, 2021 (www.egrwse2021.com). The symposium is hosted by Dokuz Eylül University, Department of Civil Engineering, Geotechnics Division.

EGRWSE-2018 and EGRWSE-2019 conferences were very successful events covering the state-of-the art research on environmental geotechnology, sustainability, and use of recycled waste materials for civil infrastructure. Participation to EGRWSE-2021 will benefit academic researchers, practicing engineers and representatives from local authorities. Besides presenting their own research or professional work, participants will be informed from and discuss latest accomplishments, innovations and future directions in environmental geotechnology, use of recycled wastes, and sustainability. Participants will connect with each other in order to develop networks and collaborations.

Izmir is the frontier and sunshine [city of Turkey](#). Izmir, with its 8,500 years of history, is gloriously situated on the western edge of Turkey, the bountiful, the fruitful and the beautiful. Izmir, the city of olives, figs and grapes, the land of the natural, organic and fresh. The beautiful Izmir, which offers visitors many options for a unique holiday experience, pulls you into a world of picturesque modernity and traditions, with its refreshing touches to the human souls.

We look forward to having the pleasure of welcoming you all to “Third International Conference on Environmental Geotechnology, Recycled Waste Materials and Sustainable Engineering” in Izmir, Turkey.

Prof. Yeliz YÜKSELEN AKSOY
Chair of the Organizing Committee
